

ONYANGO O. WINSTONE

Telecommunication & Information Engineering Graduate

Nairobi, Kenya | +254 791 002 178 | winstoneonyango76@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Sc. Telecommunication and Information Engineering graduate with hands-on internship experience in network operations and real-time monitoring systems at Kenya Power & Lighting Company, complemented by IT and network support experience across Banking (KCB Bank Limited), Healthcare (Shofco Mathare Clinic), and Education (Shofco Mathare School for Girls) environments. Solid grounding in IP networking fundamentals, IPv4/IPv6 addressing, TCP/IP, routing and switching, built through university coursework (Computer Networking, Network Design & Management, Data Communication) and practical LAN/WAN configuration work, with growing exposure to network automation via Python. Fluent, confident communicator in English with a track record of cross-functional collaboration, adaptability, and reliable, detail-oriented execution.

CORE COMPETENCIES

IP Networking & Routing: IPv4 & IPv6 Addressing, TCP/IP, IP/MPLS Fundamentals, Routing & Switching, OSPF (coursework), Network Design & Management, LAN/WAN, Network Security, SCADA & Real-Time Monitoring Systems

Emerging & Complementary: Network Automation (Python scripting), Cloud Native & Kubernetes Fundamentals, AI/ML Model Development, Data Analysis

Programming & Development: Python, C++, JavaScript, Dart, HTML/CSS

Systems & Platforms: Windows & Linux Administration, Active Directory, MS Office 365, Hardware Diagnostics & Assembly, MATLAB, AutoCAD.

Fibre-Optic & Transmission Systems: Fibre-Optic Multiplexers, Optical/Data Signal Transmission, Loop Telecom Equipment, SCADA Systems, RTUs, Transmission Line & Substation Infrastructure

Field & Technical Practice: Preventive & Corrective Maintenance, Fault Diagnosis & Troubleshooting, Site/Substation Inspections, Hardware Diagnostics & Installation, Health & Safety Awareness

Soft Skills: Clear Written & Verbal English Communication, Cross-Functional Collaboration, Adaptability, Critical Thinking, Time Management, Attention to Detail, Customer Focus

EDUCATION

Jomo Kenyatta University of Agriculture and Technology (JKUAT)

Nairobi, Kenya

B.Sc. Telecommunication and Information Engineering

Sep 2021 – May 2026

Grade: Second Class Honors (Upper Division)

Relevant Coursework: Data Communication, Signals & Communication, Instrumentation and Control Engineering, Analogue Filters, Antenna Theory & Design, Wireless Communications, Computer Networking, Network Design & Management, Network Security & Cryptography, Digital Signal Processing, Digital Image Processing, Distributed Computing, Software Engineering, Database Management Systems.

Samsung Innovation Campus (SIC) & JHUB Africa

Nairobi, Kenya

Trainee - Artificial Intelligence (AI) and Machine Learning

Jun 2026 – August, 2026

Andela & The Linux Foundation

Nairobi, Kenya

Kubernetes and Cloud Native Essentials

Feb 2026 – Apr 2026

Power Learn Project Academy (PLP)

Nairobi, Kenya

Software Development - Flutter, Web Development, Database Management, Python, AI/ML

Feb 2025 – Nov 2025

Butula Boys High School

Busia, Kenya

Grade: A-

KCSE

Jan 2017 – Dec 2020

PROFESSIONAL EXPERIENCE

Kenya Power & Lighting Company (KPLC)

Nairobi, Kenya

Telecommunications Engineer Intern

May 2025 – Aug 2025

- Collaborated with senior engineers and technicians to implement and maintain SCADA systems and real-time monitoring tools, including RTUs and networked telecom equipment, supporting reliable data communication across the utility's network infrastructure.
- Conducted substation site visits for scheduled maintenance and fault troubleshooting on telecommunications and network infrastructure.
- Gained practical exposure to networked monitoring systems and data communication protocols underpinning real-time industrial network operations.

Shining Hope for Communities (SHOFCO)

IT & Tech Support Intern

Nairobi, Kenya

May 2026 – Jul 2026

- Installed and configured operating systems, productivity software, and antivirus tools on desktops and laptops across clinic and school sites.
- Configured internet connectivity and network devices, and diagnosed hardware/software issues for staff at Shofco Mathare Clinic and Mathare School for Girls.
- Delivered first-level technical support and issue resolution for the SHA healthcare system and general end users.

KCB Bank Limited

Intern Engineer

Nairobi, Kenya

Jul 2024 – Sep 2024

- Provided technical support for digital banking services, including ATM transactions and mobile banking applications.
- Assisted customers with internet and mobile banking registration, troubleshooting, and usage guidance, strengthening client-facing communication skills.

JKUAT ICT Department

ICT & Systems Engineer Attaché

Nairobi, Kenya

May 2023 – Aug 2024

- Supported technical staff in troubleshooting and maintaining laboratory computers and infrastructure.
- Installed and configured software applications across university lab systems.

PROJECTS

AI-Powered Gimbal System with Real-Time Face Tracking for Speaker-Centric Recording and Surveillance

Final Year Project | JKUAT - Supervised by Dr. Lawrence Chege

Led a group project through the full engineering cycle: planning, estimation, risk identification, and progress reporting to design and build a closed-loop robotic control system (raspberry pi, NEMA 17 stepper motors, DRV8825 drivers) integrating real time computer visions using Deep Neural Networks for automated user tracking.

Additional projects: github.com/Winstone-Onyango
